UNIVERSITY RULE

34.02.01.M1 Substance Abuse Prevention
Approved January 13, 1999
Revised January 24, 2002
Revised June 2, 2009
Revised October 24, 2013
Revised October 1, 2019
Revised July 27, 2021
Next Scheduled Review: July 27, 2026

Rule Statement

Texas A&M University is committed to protecting the safety, health, and well-being of its employees, students, and all people who come into contact with its property, facilities, and representatives. Recognizing that drug and alcohol abuse poses a direct and substantial threat to this goal, Texas A&M is committed to providing a drug-free campus environment for all of its employees, students and visitors.

Reason for Rule

This rule provides requirements for addressing substance abuse or suspected substance abuse by Texas A&M students, employees, applicants, contractors/subcontractors, and leased employees while on the job, on Texas A&M property, in a Texas A&M vehicle, or while representing Texas A&M. Texas A&M reserves the right to change these requirements as required by law or as it deems appropriate. Furthermore, this rule provides guidelines for implementation of a drug and alcohol abuse awareness, prevention and intervention program for students and employees in accordance with the Drug-Free Workplace Act of 1988, the Drug-Free Workplace Rules for Department of Defense (DOD) Contractors, and the Drug-Free Schools and Communities Act of 1989 and as required under other federal-granting authorities.

Official Rule/Responsibilities

1. SCOPE

1.1 This rule addresses:

1.1.1 Alcohol use and abuse;
1.1.2 The illegal use, sale, or possession of drugs; and
1.1.3 The misuse of drugs including over-the-counter and prescription drugs.

1.2 The provisions of this rule are applicable to all Texas A&M students, employees and job applicants, including contractors/subcontractors and their employees, leased employees, and part-time employees (as applicable). This rule applies when on the job, on Texas A&M property, in a Texas A&M vehicle, or while representing Texas A&M.

1.3 Some employees, contractors/subcontractors and their employees, leased and part-time employees are also subject to the U.S. Department of Transportation (DOT) regulations or other regulatory bodies or federal-granting authorities governing workplace substance abuse. Employees covered by U.S. Department of Transportation regulations must comply with this rule, as well as 34.02.01.M2, Substance Abuse Prevention Rule for DOT-Regulated Employees.

2. PROHIBITION AND CONSEQUENCES

2.1 Illicit Drug Policy: Texas A&M prohibits the use, sale, attempted sale, conveyance, distribution, manufacture, cultivation, dispensation, purchase, attempted purchase, and possession of illicit drugs at any time and in any amount or in any manner. Illicit drugs include all drugs, intoxicants, or controlled substances for which possession is illegal under federal or state law, including prescription drugs for which the individual does not have a valid prescription.

Students are also responsible for adhering to rules outlined in the University Student Rules, see Student Rule 24.4.12. Drugs. This also includes adhering to other published university rules as applicable, such as the Residence Hall Handbook or the Corps of Cadets Standard.

2.2 Prescription Drug Policy: Texas A&M prohibits the use of prescription medications for which the student or employee does not have a valid prescription, and the use of prescription medication in a manner inconsistent with the prescription.

2.3 Alcohol Policy: The purchase, consumption and possession of alcoholic beverages in facilities under the control of Texas A&M shall in all respects comply with state laws and with guidelines as defined in System Policy 34.02, 34.03 and Texas A&M SAP 34.03.99.M0.01.

Students must comply with Student Rule 24.4.13. Alcohol as well as other published university rules as applicable, such as the Residence Hall Handbook or the Corps of Cadets Standard.

2.4 Failure to comply with this rule may result in disciplinary action, up to and including termination or expulsion. See SAP 32.02.02.M0.02 and Student Rule 27, Sanctions. A student or employee who violates any state or federal law pertaining to controlled substances, illicit drugs, or the use of alcohol may be subject to prosecution in accordance with the law. Legal sanctions for violation of local, state and federal laws may include, but not be limited to: fines, probation, jail or prison sentences, see Appendix XIII: Laws Relating to Alcohol.
2.5 If an employee found to be in violation of this rule is not terminated, the employee may be permitted to return to work if:

2.5.1 the employee successfully completes a program of evaluation, and
2.5.2 the employee signs a Job Jeopardy Return-to-Work Agreement provided by Texas A&M which includes a requirement for unannounced follow-up testing for a period not to exceed two years, and up to 60 months for DOT-regulated employee, or as required under the terms of a federal grant or contract; and for discharge if the employee tests positive or refuses to submit to testing during this time period. The Return-to-Work Agreement may contain other requirements and provisions at Texas A&M’s discretion including successful completion of a treatment program. Any cost of rehabilitation over and above that paid for by any applicable healthcare plan must be borne by the employee.

2.6 The possibility of returning to work described above does not extend to an employee who:

2.6.1 refuses to submit to testing or attempts to thwart the testing process by attempting to tamper with, adulterate, or otherwise evade the testing process;
2.6.2 possesses an illicit drug on Texas A&M premises, on university time, or while representing Texas A&M; or
2.6.3 is convicted of a drug-related crime which took place on Texas A&M premises, on university time, or while representing Texas A&M.

2.7 An employee will be automatically terminated for the actions described in Section 2.6.

3. EMPLOYEE RESPONSIBILITIES

3.1 Employees shall report suspected violations of this rule to their immediate supervisor or to Human Resources.

3.2 Employees shall report to their supervisor, or to Human Resources, any use of a prescribed or over-the-counter medication that could adversely affect their job performance. It is each employee’s responsibility to check with a physician regarding whether any medication may adversely affect performance. Any such medical information will be kept confidential and shared with appropriate Texas A&M personnel only on a need-to-know basis. Employees working in safety- or security-sensitive positions may be transferred or placed on leave in accordance with Texas A&M leave provisions for so long as the employee may be adversely affected by a medication.

3.3 It is the employee’s responsibility to seek assistance before an alcohol or drug problem leads to disciplinary action. An employee who is found to have violated this rule will be subject to discipline, up to and including termination. The employee will not be permitted to seek rehabilitation in lieu of discipline, but will be required to participate in rehabilitation as a condition of continued employment.
3.3.1 An employee’s decision to seek voluntary help will not be used as a basis for disciplinary action. For a decision to seek help to be considered voluntary, it must occur before an employee is discovered to have violated this rule in any manner.

4. DRUG AND ALCOHOL TESTING

Texas A&M may require employees and job applicants to provide a urine specimen for drug testing, and/or a breath sample for alcohol testing, and/or another type of specimen suitable for testing for illicit drug abuse or alcohol use. Agreeing to such testing, providing such samples, and fully cooperating in the testing process are mandatory conditions of employment or continued employment with Texas A&M.

4.1 Job Applicants: Applicants for safety (DOT) and/or security-sensitive employment or as a condition of any federal grant or contract if required by the grant or contract may be required to submit to a mandatory drug test as soon as practical following their acceptance of a conditional offer of employment and prior to the time they actually begin employment with Texas A&M.

4.1.1 Job applicants subject to such testing will be notified at the time they apply.

4.1.2 Job applicants who test positive for illicit drug use will not be hired.

4.1.3 Job applicants who test positive for drugs or admit to prior illegal drug use may reapply for a position with Texas A&M six (6) months after such use or positive test result provided that they present evidence of successful rehabilitation that is acceptable to Texas A&M at the time of their reapplication.

4.1.4 A job applicant’s refusal to submit to testing will be considered equivalent to a confirmed positive drug test and will result in the denial of employment.

4.2 Current Employees:

4.2.1 All Texas A&M employees are subject to reasonable suspicion testing for drugs and/or alcohol whenever Human Resources, after consultation with OGC, has reason to believe that any employee may have used drugs or alcohol in violation of this rule. Texas A&M’s determination that reasonable suspicion exists will be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the employee, including behavior or symptoms which may indicate chronic and/or withdrawal effects of the use of controlled substances as defined in System Regulation 34.02.01, Drug and Alcohol and Rehabilitation Programs. In addition, a job-related accident or near-accident involving human error may trigger a reasonable suspicion test request.

4.2.2 All employees who have previously tested positive and who are permitted to return to work as defined in section 2.5, will be required to undergo unannounced follow-up alcohol and/or controlled substances testing as
recommended by the employee’s substance-abuse treatment provider and in a manner acceptable to Texas A&M, for a period not to exceed two years, and up to 60 months for DOT-regulated employees, or as required under a condition of a federal grant or contract. This provision does not affect or limit in any way Texas A&M’s right to discipline employees for a violation of this rule nor guarantee that an employee in violation of this rule will be afforded an opportunity to return to or continue employment with Texas A&M.

4.3. Students
4.3.1. Random drug testing policies are in place for members of the Corps of Cadets and student-athletes.

5. UNIVERSITY PROGRAMS AND COMMUNITY SERVICES

5.1 Employees

5.1.1 Texas A&M offers the services of a third-party vendor Employee Assistance Program (EAP) to benefit-eligible employees and their immediate family members with drug- and/or alcohol-abuse problems. The EAP can provide an evaluation and referral to appropriate services and rehabilitation programs that emphasize education, prevention, counseling and treatment. The cost of any such services may be covered under the employee’s health insurance plan. The EAP provides confidential assistance to employees to identify and resolve personal concerns so that employees are better able to perform their jobs.

5.1.2 Health insurance coverage may cover some or all of the expenses of treatment for alcohol or drug problems. Employees can contact Human Resources Benefits Services or their individual health plan representative for information.

5.1.3 Community service hospitals can be contacted for emergency care. Other community services include therapists, counselors, treatment centers, and support groups. For assistance in identifying an appropriate service, contact the EAP or the Center for Drug Prevention and Education.

5.2 Students

5.2.1 Student Health Services, Counseling & Psychological Services (CAPs) and outreach programs are available to students.

6. DISTRIBUTION OF INFORMATION

Required information and material as outlined in System Regulation 34.02.01, Section 3.2 is distributed to all new employees through new employee orientation and annually to all employees and students and in training and education programs.

Per the Drug Free Schools and Communities Act of 1989, a review of alcohol and other drug programs available to our employees and students is conducted and a biennial Texas
A&M University Drug Free Schools and Communities Act report is completed.
