Rule Statement

The following Texas A&M University (Texas A&M) contract administration rule is promulgated pursuant to The Texas A&M University System (A&M System) Contract Administration Policy and constitutes the provisions that govern administration of Texas A&M contracting authority.

Official Rule/ Responsibilities/ Process

1. These procedures and limits of delegation of authority shall establish the process for Texas A&M personnel to originate, recommend, approve, sign, execute, administer, close out, and report contracts committing Texas A&M to the performance of any act. The Department of Contract Administration is responsible for creating and maintaining a well-defined administrative control environment that assures management exercises its fiduciary responsibilities when executing contracts on behalf of Texas A&M. The Assistant Vice President for Business Services, designated by the Vice President and Chief Financial Officer, serves as the University Contracts Officer.

1.1 Delegations of authority pursuant to this rule are valid only if in writing.

1.2 Written contracts shall be executed whenever Texas A&M enters into a binding agreement with another party that involves any stated or implied consideration. The Vice President and Chief Financial Officer or a designee may waive the requirement for a written contract if the stated or implied consideration is $10,000 or less. Such waiver is valid only if in writing.

1.3 Contracts are construed to include, but not be limited to, the following: purchase orders, agreements, cooperative agreements, memoranda of understanding, interagency contracts, grants, loans, easements, licenses, leases, permits and restrictions on acceptances of gifts and bequests, and amendments, modifications, and...
extensions of those contracts. Other parties include, but are not limited to: Federal, state and local agencies, non-profit organizations, private businesses, partnerships and individuals.

1.4 For purposes of this rule, contracts made by Texas A&M departments for the reservation of hotel and/or conference facilities should not be routed through the Department of Contract Administration nor be reviewed by the Office of General Counsel (OGC) so long as the Texas A&M department and the facility sign the standard Facility Use Addendum, as provided by the Department of Contract Administration, in conjunction with the facility’s standard contract. In the event the facility objects to the use of the Facility Use Addendum; the facility’s contract should then be sent to the Department of Contract Administration for review. The Facility Use Addendum is intended to assist departments in exercising care when a hotel or conference facility’s contract contains clauses that constitute a commitment by Texas A&M, which could lead to monetary or legal liabilities. Such clauses generally mention liability on the part of the department for damages, or require a guarantee of payment for unoccupied rooms or facilities. While the standard Facility Use Addendum attempts to mitigate these risks, departments should determine the availability of a funding source should circumstances dictate cancellations resulting in a penalty. Department heads may wish to establish specific departmental guidelines to avoid needless penalty payments. This rule authorizes respective department heads authority to execute such contracts so long as the stated or implied consideration does not exceed the authority delegated to the President.

1.5 For purposes of this rule, contracts made by Texas A&M departments with vendors to provide services internationally must be routed through the Department of Contract Administration. This applies to U.S based and international vendors providing services that include, but are not limited to, programs for the benefit of students, faculty or staff on Texas A&M related business or academic/research purposes. Contract Administration has coordinated with OGC on the development of a standard contract with vendors for these services and works with the vendor to coordinate an acceptable contract. For contracts and collaborations with foreign persons, entities, or groups, Texas A&M departments must ensure compliance with System Regulation 15.05.04 and University Rule 15.05.04.M1.

Vendor contracts providing lodging (hotel agreements) and/or travel (airfare, car rental, bus transportation) only do not need to route through the Department of Contract Administration. These itinerary-based confirmations for travel and lodging contracts may be signed by the respective department head.

1.6 A contract or request for a contract (which may consist of a contract provided by another party) may originate from an academic department or non-academic unit and carry their respective recommendations for approval.

1.7 Approval of and signature on a contract constitutes approval to establish an operating budget, which does not exceed the consideration of the contract, without further approval.

1.8 Contract Administration is responsible for the administrative management of large-scale contracts with university-wide implications. This oversight includes monitoring
all financial and operational elements with regular reporting to senior administration, contract closeout, and fulfilling all contract reporting required under A&M System policy and regulation, applicable law, and the terms of the contract. For all other contracts, including those large-scale contracts specific to a Texas A&M operational or academic unit, the respective operational or academic unit to which a contract pertains is responsible for all financial and operational elements, providing regular reporting to senior administration, contract closeout, and fulfilling all contract reporting required under A&M System policy and regulation, applicable law, and the terms of the contract. Contract management must be in accordance with the A&M System Contract Management Handbook.

1.9 The Division of Research currently administers certain sponsored contracts and other research related contracts. The Vice President for Research (or designee) may approve such contracts.

2. CONTRACTS REQUIRING BOARD OF REGENTS APPROVAL

2.1 A table containing a listing of contracts requiring Board of Regents approval, and any supporting documentation requested, shall be forwarded by the Department of Contract Administration to the Division of Operations for the preparation of an agenda item. If a contract is presented to the Board of Regents in a separate agenda item, the Department of Contracts Administration submits a proposed draft agenda item to the Division of Operations. Once finalized, the Division of Operations then routes agenda items through the administrative chain and submits them to the A&M System.

2.2 Contracts shall be signed by the chancellor or the president following review for legal form and sufficiency by the Office of General Counsel, as specified in the Board of Regents Minute Order in which they are approved.

3. CONTRACTS REQUIRING CHANCELLOR APPROVAL

Contracts requiring chancellor approval, unless delegated to the president under A&M System Policy 25.07, Section 6, shall be forwarded through the University Contracts Officer, chief Financial Officer and president to the chancellor for execution.

4. PRESIDENT’S DELEGATION OF AUTHORITY

In accordance with A&M System Policy 25.07, the president may delegate authority to approve and sign specific contracts to designees but retains overall responsibility for their actions. All delegations given herein are per SAP 25.07.01.M1.01, Texas A&M President’s Delegation of Authority for Contract Administration. Delegation of authority may only be re-delegated, in writing, with a copy provided to the Department of Contract Administration.
